German Canadian Association

INFORMATION FOR EMPLOYERS

“ We have been very
happy with the students that the
association has picked for us. Many of
them have become long-term family
friends. We also very much appreciated
their help and knowledge that they
contributed to our business.”

**Anja Mitchell,
Mitchell Cattle Co., B.C**

ABOUT US

The German Canadian Association (DKG), founded in 1951, is a non-profit organisation which promotes the economical, cultural and social relationship between Germany and Canada.

One of our key focus areas is supporting trans-atlantic youth development. Since 1965, we have successfully been offering our Work and Travel Program for German students in cooperation with the Canadian Embassy in Berlin and many long-term partners in Canada. Our program history makes us one of the most experienced providers in this market, exclusively focusing on Canadian work placements. The record speaks for itself: over 3,000 students have participated in our program.

BECOME A PARTNER

We are continually looking for new summer job opportunities for future participants of this program. In our experience, our students are able to quickly succeed at simple tasks such as office work, gastronomy, farm work and workshops. The participants should be working in Canada for 6 to 8 weeks during the summer break and earn their money (at least minimum wage) in order to travel across the country afterwards.

YOU ARE SEEKING

Young students who are
+ highly motivated
+ sociable
+ reliable
+ fluent in English and/or the French language

We choose the most suitable candidates in a personal interview and prepare them for their stay in Canada including the application for the Working Holiday Visa and a two-day seminar.
