Nestled in the heart of Ettlingen, the atelier of Montreal-born artist Marie Madeleine Noiseux is a sanctuary of creativity, where each brushstroke tells a unique story. After studying Fine Arts at the University of Québec, she was invited in 1983, as a rising Canadian artist, to exhibit her works at the prestigious Grand Palais in Paris – marking the beginning of an extraordinary artistic journey. Her career took her to Paris, New York, Washington, and Montreal, where she worked successfully as an artist for over 20 years. Since 2004, she has been living and creating in Karlsruhe.

Join us for an exclusive guided tour of her atelier and immerse yourself in the fascinating stories behind her breathtaking works. Artwork in various formats can also be purchased during the visit.

We look forward to welcoming you on May 10 in Ettlingen!

The event requires a **minimum of eight participants** to take place. Please register early.

**Best regards / Cordialement / Beste Grüße,**
